When the Senators returned to their chamber Mr. Johnson took the floor, and was proceeding to comment upon an article in the Union and American, when the Speaker (Mr. Atkins in the chair, temporarily,) decided that he was out of order. After some remarks by Messrs. Stokes, Hall,

Caldwell and Havron, Mr. Jonnson, by leave of the senate, resumed, and concluded his comments. Messrs, Caldwell and Stokes briefly opposed the n otion, regarding it as an unsafe precedent to spread call at Sheriff's sale, to Messrs, Mills & Egan, a minority report on the journal when the majority report had not been entered there, and calculated to encumber the journal with matter which had no legitimate right to be there. The debate was further continued by Messrs, Hall,

THE MOST WONDERFUL Discovery of the Age.

HIS remarkable preparation contains no alcoholic stim ulent, no essential oil, nor one unhealthy drug. It does not color the hair, but acts upon the secretions and secre-tive organs, so as to supply the former with the necessary coloring matter, and upon the latter, so as to completely restore their impaired or lost functions. All this the propri-etor has a right to say, for it has done all this for him. At the age of thirty-seven he was as gray as the man of sev-enty, and his hair nearly all fallen off, but he now has an bundant crop, and no person would ever imagine that he ver had a gray hair; and his hair is as soft and pliable as though it had been recently offed. This is not an isolated case; it has done the same for many others, as the following certificates abundantly prove.

Prof. O. J. Wood-Dear Str: Unsetletted I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any. I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber and had my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in till the scalp was all a glow. s I repeated every morning, and in three weeks the oung hair appeared, and grew rapidly from August last up of the present time, and is now black, thick and strong soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it, and that little was disspearing very rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect cope of hair. Now I have never hitherto seen any case in which any person's hair was really benefitted by the aid of the hair tonies, &c., of the day; and it really gives me pleasure to record the very terminal of any responsed to the result of my experience. I have responsed to the first hair and we have no hesitation in saying that she is, in respect to strength, equal to any boat in the trade.
